She was troubled by what he had told her and by her thoughts and feelings in the Grove, and troubled that any thought or feeling could have troubled her there. She went to the house, set out her supper of smoked meat and bread and summer lettuce, and ate it without tasting it. She roamed restlessly back down he streambank to the water. It was very still and warm in the late dusk, only the largest stars burning through a milky overcast. She slipped off her sandals and put her feet in the water. It was cool, but veins of sunwarmth ran through it. She slid out of her clothes, the man's breeches and shirt that were all she had, and slipped naked into the water, feeling the push and stir of the current all along her body. She had never swum in the streams at Iria, and she had hated the sea, heaving grey and cold, but this quick water pleased her, tonight. She drifted and floated, her hands slipping over silken underwater rocks and her own silken flanks, her legs sliding through waterweeds. All trouble and restlessness washed away from her in the running of the water, and she floated in delight in the caress of the stream, gazing up at the white, soft fire of the stars.. She was a whitey roan, young, with a pretty face. He went.BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. "The art begins and ends in naming," he said, which indeed is true, although there may be a good deal between the beginning and the end.."Oh no, that's vision. . ."East Fields," the young man said..only imagination can restore the least glimmer of it. Gelluk's attention turned entirely away from him then, fixed on the hillside and the vision he saw within it. Then Otter could call to Anieb. At once she came into his mind and being, and was there with him..Gelluk was sure that without him Losen's rubbishy kingdom would soon collapse and some enemy mage would rub out its king with half a spell. But he let Losen act the master. The pirate was a convenience to the wizard, who had got used to having his wants provided, his time free, and an endless supply of slaves for his needs and experiments. It was easy to keep up the protections he had laid on Losen's person and expeditions and forays, the prisoning spells he had laid on the places slaves worked or treasures were kept. Making those spells had been a different matter, a long hard work. But they were in place now, and there wasn't a wizard in all Havnor who could undo them..This time the Doorkeeper nodded.
