Well, part of it is more than a theory. The combination of the Martian polar inclination, the precessional cycle, and the eccentricity of the orbit produces seasons that are about twelve thousand years long. We're in the middle of winter, though we landed in the nominal 'summer/ It's been theorized that if there were any Martian life it would have adapted to these longer cycles. It hibernates in spores during the cold cycle, when the water and carbon dioxide freeze out at the poles, then comes out when enough ice melts to permit biological processes. We seem to have fooled these plants; they thought summer was here when the water vapor content went up around the camp.".She smiled. "You're very gallant. Just out of curiosity, Barry wondered aloud, what kind of cash payment were they talking about? Jason said the standard fee, a year ago, for a single sticker had been a thousand dollars; two and a half for a pair, since people with two blanks to fill could be presumed to be that much more desperate. Due however to a recent disproportion between supply and demand, the going price for a single was now seventeen hundred; a double, a round four thousand. Jason said he could arrange an introduction at that price, if Barry were interested.. broadly. "Poor Vestal Virgin. How shocking to be confronted with the possibility the temple of her body."
