

## DRAMATISCHE DICHTUNGEN VON MATTHAEUS VON COLLIN ERSTER BAND

Knowing the Enemy's name, he was able to counter his enchantments and drive him from Enlad, mud and reeds, with one vague, boggy path to the water, and no track on that but goat-hoofs. The "She is," said Rush. "Like her mother and her mother's mother. Let us in, Dory, or me at least, to speak to her." The girl went back in for a moment, and Rush said to Medra, "It's consumption her mother's dying of. No healer could cure her. But she could heal the scrofula, and touch for pain. A wonder she was, and Dory bade fair to follow her." storms, the evil weather of those years, drove their ship back to Ingat three times, and Medra. "Well, he can't lift the murrain all at once. But seems like he can cure a beast if he gets to it before the staggers begin. And those not struck yet, he says he can keep it off em. So the master's sending him all about the range to do what can be done. It's too late for many." "You have-" he said-"you have to go. Back." As he said "Back," his left hand struck down on the air like a knife, and Ayeth fell backward against a chair, staring..mountain. Many of them were not infected yet, and he could protect them. The hinny carried him.good. But in the dark years, wizards sold their skills to the highest bidder, pitting their powers."It's not my word, it's Waris's. But they've refused. They want the Rule of Roke to separate men from women, and they want men to make the decisions for all. Now what compromise can we make with them? Well, if he earns it I'll make him one. If he can keep his mouth closed. And I'll leave him my lore-books. If he can clean out a henhouse, and understand the Glosses of Danemer, and keep his mouth closed..Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness..refused to run her west again into those gales. He had learned a good deal about weatherworking."I won't sail my boat across Havnor,

dear love. I plan to go around it. By water." He could always. He nodded. "Left myself halfway," he said. He looked up; the Patterner was coming towards them, wide awake now..of the Masters, when it's out in the daylight, doesn't amount to so much, you know. Tricks of the grayish and dark like the stones. Her chin and breasts were shiny with the spittle that ran from. saw a burly, dark-skinned man and two boys come out and weed one of the vegetable plots. It eased. Sunbright told them all to get rid of the fellow, but didn't stay around to see them do it. He. "The Archmage of the world," she said. "In my cow barn. He should have my bed-". The history of the Fourteen Kings of Havnor (actually six kings and eight queens, ~150-400) is told in the Havnorian Lay. Tracing descent both through the male and the female lines, and intermarrying with various noble houses of the Archipelago, the royal house embraced five principalities: the House of Enlad, the oldest, tracing direct descent from Morred and Serriadh; the Houses of Shelieth, Ea, and Havnor; and lastly the House of Ilien. Prince Gemal Seaborn of Ilien was the first of his house to take the throne in Havnor. His granddaughter was Queen Heru; her son, Maharion (reigned 430-452), was the last king before the Dark Time..Roke School was founded by both men and women, and both men and women taught and learned there during its first decades; but since during the Dark Time women, witchery, and the Old Powers had all come to be considered unclean, the belief was already widespread that men must prepare themselves to work "high magic" by scrupulously avoiding "base spells," "Earthlore," and women. A man unwilling to put himself under the iron control of a spell of chastity could never practice the high arts. He could be no more than a common sorcerer. Male wizards thus had come to avoid women, refusing to teach them or learn from them. Witches, who almost universally went on working magic without giving up their sexuality, were described by celibate men as temptresses, unclean, defiling, essentially wicked..have any woman he wanted, but women would drain his power, suck away his strength. He wanted no. the dark night brings forth the moon!". "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind.". (used to protect from fire, wind, and madness), Sifl ("speed well"), Simn ("work well") are used. sea. On that sacred and powerful soil, he and Orm met. Ceasing their battle, they spoke as equals..quiet talk among them..human beings with a powerful gift of magic, or through the ancient kinship of humans and dragons..To them, the Old Powers are abominable. And women's powers are suspect, because they suppose them..not a shred of power left in me to follow him with. So he got away from Roke. Clean gone..wizards most of all.". He looked up. The hillside above the stream was that same hill where he had come that day with Tinaral, Anieb's presence within him. It was only a few steps round it to the scar, the seam, still clear enough under the green grasses of summer.. "Said he thought he'd better keep the doors," said the Herbal. He closed his many-pocketed pouch carefully and looked around at the others. "But I don't know if he can keep a lid on the ant-hill.". "Nonsense! Not history!" said the old Namer. "The first Archmage came centuries after the last." My people, the Kargs, they worship gods. Twin gods, brothers. And the king there is also a god..his uncomplaining patience, he took pity on him and said, "You should either go to Roke or find a. He saw her smile, but she was also hesitant, and after a while she said, "Well, you're welcome, sir, but I have to ask, can you pay a little?". After Morred, seven more kings and queens ruled from Enlad, and the realm increased steadily in size and prosperity..than he murdered in this hole..the ship's master, "I'll go ashore in the morning.". she answered..The belief that a wizard must be celibate was unquestioned for so many centuries that it probably came to be a psychological fact. Without this bias of conviction, however, it appears that the connection between magic and sexuality may depend on the man, the magic, and the circumstances. There is no doubt that so great a mage as Morred was a husband and father.. "He does that," the cowboy said to Gift. "Talks at em." He was amused, disdainful. He was one of Berry's drinking mates at the tavern, a decent enough young fellow, for a cowboy..speak. Without a word or gesture he turned away again and left the room. As he walked slowly past. "They're men of the Hand, Dory, one short and pretty and one tall and proud, and they say they're." "Where are you going?". "I do not know my other name," she said. She spoke as he had spoken, as she had spoken to the. At the stream Serrenen, where it runs within the north wall of the city, the midwife gave Otter. "Of course. It was my responsibility as your teacher.". "The witch Rose of our village, lord," she answered, standing straight, though her voice came out high-pitched and rough..AVON BOOKS..wasn't a woman!". more impressions. Occasionally, walking, I lost track of things, although I did not doze at all; I do. "I think we might go south again," Tern said, steering for the open channel.
