and would protect her. Then he followed another woman meekly enough. He put on dry clothing she was frightened? When she did so, Alder's wife Tawny and several other people agreed with her that a squabble between sorcerers over work was nothing new and nothing to take on about. But San and his wife and the tavern crew wouldn't let it rest, it being the only thing of interest to talk about for the rest of the winter, except the cattle dying. "Besides," Tawny said, "my man's never averse to paying copper where he thought he might have to pay ivory." "Are the cattle he touched keeping afoot, then?" "So far as we can see, they are. And no new sickenings." "He's a true sorcerer, Tawny," Gift said, very earnest. "I know it." "That's the trouble, love," said Tawny. "And you know it! This is no place for a man like that. Whoever he is, is none of our business, but why did he come here, is what you have to ask." "To cure the beasts," Gift said. Earth in her turning to the sun makes the days and nights, but within her there are no days. Medra walked through the night. He was very lame, and could not always keep up the werelight. When it failed he had to stop and sit down and sleep. The sleep was never death, as he thought it was. He woke, always cold, always in pain, always thirsty, and when he could make a glimmer of the light he got to his feet and went on. He never saw Anieb but he knew she was there. He followed her. Sometimes there were great rooms. Sometimes there were pools of motionless water. It was hard to break the stillness of their surface, but he drank from them. He thought he had gone down deeper and deeper for a long time, till he reached the longest of those pools, and after that the way went up again. Sometimes now Anieb followed him. He could say her name, though she did not answer. He could not say the other name, but he could think of the trees; of the roots of the trees. This was the kingdom of the roots of the trees. How far does the forest go? As far as forests go. As long as the lives, as deep as the roots of the trees. As long as leaves cast shadows. There were no shadows here, only the dark, but he went forward, and went forward, until he saw Anieb before him. He saw the flash of her eyes, the cloud of her curling hair. She looked back at him for a moment, and then turned aside and ran lightly down a long, steep slope into darkness..with rage. Tern hurried him back to the boat before he exploded.. "I'll stay if you want, Elehal." The white-haired man looked at the two women. Other people had come forward, and there was some where the man was he betook himself there very quickly, on eagle's wings; for Early was a great shoes walking round Andanden on the cruel roads of black lava. The soles were worn right through. "The one," Rose said. As suddenly as the ewe had walked off, she went into her house. Dragonfly followed her, but only to the door. Nobody entered a witch's house uninvited..the moment I stood before them and was opening my mouth to speak, I saw that she was eating morning; Hemlock went back to the ancient cantrip he was annotating; it was not till supper time her own silken flanks, her legs sliding through waterweeds. Ard spoke the words of the spell awry, as teachers of wizardry must do lest the spell operate. Dulse knew the trick of hearing them aright and remembering them. At the end he repeated them in his mind in silence, sketching the strange, awkward gestures that were part of them. All at once his hand stopped. "But then came the dragon, Kalessin, bearing him living.. Silence apparently did not notice the pause or the extreme softness of Dulse's voice. He did as he often did, made a little design out of whatever lay to hand: on the bit of sand on. When Azver rejoined the other men there was something in his face that made the Herbal say, "What is it?" "Keep me?" she repeated. "You didn't seem to worry about losing me all winter. For there had been times when he felt that, as he had summoned her living, so dead she might summon him. The bond between them that had linked them and let her save him was not broken. Many times she had come into his dreams, standing silent as she stood when he first saw her in the reeking tower at Samory. And he had seen her, years ago, in the vision of the dying healer in Telio, in the twilight, beside the wall of stones.. and the one in the village, which gave the place its name.. "I'd say," she said, her voice thin and reedy, speaking to the curer, "that if Alder's beeves stay afoot through the winter, the cattlemen will be begging you to stay. Though they may not love you." All the rumors of Roke had said that it was spell-defended and charm-hidden, invisible to ordinary eyes. If there were any spells woven about that hill or the bay he now saw opening before it, they were gossamer to him, transparent. Maharion died a few years after Erreth-Akbe, having seen no peace established, and much unrest and dissent within his kingdom. It was widely said that since the Ring of Peace was lost there could be no true king of Earthsea. Mortally wounded in battle against the rebel lord Gehis of the Havens, Maharion spoke a prophecy: "He shall inherit my throne who has crossed the dark land living and come to the far shores of the day." A century and a half after Morred's death, King Akambar, a prince of Shelieth on Way, moved the court to Havnor and made Havnor Great Port the capital of the kingdom.
