"That's the land of the Far Rainbow!" cried Jack. "We could almost step through into it!" And he began to go forward..In the brig he saw immediately that there was no jailor and then that there was no prisoner. Furious, he rushed into the cell and began to tear apart the bundle of blankets in the corner. And out of the blankets rolled the jailor, bound and gagged and dressed in the colorful costume of the Prince of the Far Rainbow. For it was the jailor's clothes that Jack had worn when he had gone with Amos to the mountain..A block south of the Federal Communications Building, he looked up, and there strung out under the cornice of the building was the motto, which he had never noticed before, of the Federal Communications Agency:..Now she lay on the bunk, her feet sprawled carelessly in front of her. There's no other way. Oh, not people like us, maybe. Maybe we're seeing them right now, spinning like crazy." They all looked uneasily at the whirligigs. "But I think they're not here yet I think we're going to see, over the next few years, increasing complexity in these plants and animals as they build up a biome here and get ready for the builders. Think about it. When summer comes, the conditions will be very different. The atmosphere will be almost as dense as ours, with about the same partial pressure of oxygen. By then, thousands of years from now, these early forms will have vanished. These things are adapted for low pressure, no oxygen, scarce water. The later ones will be adapted to an environment much like ours. And that's when we'll see the makers, when the stage is properly set." She sounded almost religious when she said it..She grinned. "You've got a cute rear end. Almost as cute as Hurt Reynolds'. Maybe he's twins."..Her pictures, though, did not do her justice. Some defenses against this experience take the form of asserting there's no such thing as great art; some, that whatever moves one intensely is great art. Both are ways of asserting the primacy and authenticity of one's own experience, and that's fine. But whatever you (or I) like intensely isn't, just because of that, great anything, and the literary canon, although incomplete and biased, is not merely an insider's snobbish conspiracy to make outsiders feel rotten. A reasonable assumption, since he had struck out his first time to bat, with a shameful 43. But when two weeks had gone by and there was still no word from the Board of Examiners, he wondered if maybe he'd managed to squeak through. He didn't see how he could have. The examiner, a wizened, white-haired fuddy-duddy whose name Barry instantly forgot, had been hostile and aggressive right from the word go, telling Barry that he thought his handshake was too sincere. He directed the conversation first to the possible dangers of excessive sunbathing, which was surely an oblique criticism of Barry's end-of-August tan and the leisure such a tan implied, then started in on the likelihood that dolphins were as intelligent as people. Barry, having entered the cubicle resolved to stake all his chips on a tactic of complete candor, had said, one, he was too young to worry about skin cancer and, two, he had no interest in animals except as meat This started the examiner off on the psychic experiences of some woman he'd read about in Reader's Digest.
