Critical judgments are so complex (and take place in such a complicated context), the vocabulary of praise and blame available in English is so vague, so fluid, and so constantly shifting, and the physical space allowed is so small that critics welcome any way of expressing judgments that will be both precise and compact. If vivid be added thereunto, fine?what else is good style? Hence critics, whenever possible, express their judgments in figurative language. Wit is a form of condensation (see Freud if you think this is my arbitrary fiat) just as parody is a form of criticism (see Dwight McDonald's Modern Library collection thereof)..McKHLian looked horrified, as any good ecologist would.. "You're prejudiced" Nolan grinned, but he was flattered. And when the tiny pink starshell of a hand.come bade." Amos jumped out of his rags and handed them to the sailor who trotted off toward the wheelhouse. Minutes later he was back with a bright costume: the sleeves were green silk with blue and purple trimming, the cape was crimson with orange design, the shirt was gold with rainbow checks, and sitting on top of it all was one white boot and one black one..2. If Detweiler wanted to play cards or something that night, I wanted them to agree and suggest I be a fourth. If he didn't bring it up, I would, but I had a feeling he would want his usual alibi this time..He lost his balance and toppled over. His arms flailed for equilibrium, but never found it He struck the edge of the table. It caught mm square across the hump on his back. He bounced and fell forward on his hands. The sailor was pushing a mop back and forth so hard that Amos decided he was trying to scrub the last bit of color off the grey boards. "Good evening to you too," said Amos. "I'm exploring the ship and I have very little tune since I'm to be up at four o'clock in the morning. I was told to avoid the brig. So could you point it out to me? "It's well I wore these rags of yours," said Jack, "and not my own clothes, for the weeds would have caught in my cloak and the boots would have pulled me down and I would have never come up. Thank you, Amos.". "Hi," said the girl in a tone intended to convey a worldly-wise satiety but achieved no more than blank anomie. "What's up?". "Yes, I see," Singh said. "And it's all very wonderful, almost too much to believe." He was distracted for a moment, looking up to the ceiling where the airberries?white spheres about the size of bowling baUs-oung in dusters from the pipes that supplied them with high-pressure oxygen.. "I'm standing here, trying to be friendly," said Amos. "I was told there was nothing of interest down here. And since it is so dull, I thought I would keep you company." "Good." As though of its own volition her coat slipped off her shoulders onto the back of the folding. "Now before you play," I said, "you must understand that we did not wish it known we were working on a proposed naval system.
