

## MEMOIRS OF MARY A NOVEL VOL II

In the Fairmont coffee shop, Junior ordered french fries, a cheeseburger, and cole slaw. He requested that the burger be served cooked but unassembled: the halves of the bun turned face up, the meat pattie positioned separately on the plate, one slice each of tomato and onion arranged beside the pattie, and the slice of unmelted cheese on a separate dish..Through tears, that night, she asked him if the commitment he was making didn't frighten him..She said, "Honey, what I'm wondering is ... could you walk where you don't have bad eyes, like you walked where the rain wasn't ... and leave the tumors in that other place? Could you walk where you have good eyes and come back with them?".Fortunately, he recognized his vulnerability. Until the evening reception for Celestina White, he must spend every hour of the day in calming activities, soothing himself in order to ensure that he would be cool and effective when the time came to act..Dishes dried and put away, Jacob retired to the living room and settled contentedly into an armchair, where he would probably become so enthralled with his new book of dam disasters that he would forget to make luncheon sandwiches until Barty and Angel rescued him from the flooded streets of some dismally unfortunate town..Though Celestina was still holding Angel, Wally kissed her, and again it was lovely, though shorter than before, and Angel said, "That's a messy kiss."..After prying Junior out of the meditative position, Chicane pushed him onto his back and vigorously--indeed, violently--massaged his thighs and calves. "Really bad muscle spasms," he explained..One, two, three, four--Edom took away all the remaining pies. He pointed at Barty and then at the empty table..Raised by a father to whom any form of amusement was blasphemy, Agnes had never seen a magician perform until she was nineteen, when Joey Lampion, then her suitor, had taken her to a stage show. Rabbits plucked out of top hats, doves conjured from sudden plumes of smoke, assistants sawn in half and mended to walk again; every illusion that had been old even in Houdini's time was a jaw-dropping amazement to her that evening. Now she remembered a trick in which the magician had poured a pitcher of milk into a funnel fashioned from a few pages of a newspaper, causing the milk to vanish when the funnel, still dry, was unrolled to reveal ordinary newsprint. The thrill that had quivered through her that evening measured I on the Richter scale compared to the full 10-point sense of wonder quaking through her at the sight of Barty as dry as if he'd spent the afternoon perched fireside..She appeared to be in her early thirties, perhaps six years older than Junior, but he didn't hold that against her. He wasn't any more prejudiced against older people than he was against people of other races and ethnic origins..The house was hers, free and clear of mortgages. There were two savings accounts to which Joey had diligently made deposits weekly through nine years of marriage..Tom Vanadium's uninflected but curiously hypnotic voice, his pensive manner, his gray eyes so beautiful in that fractured face, his air of measured melancholy, and his evident intelligence gave him a presence that was simultaneously as solid as a great mass of granite and yet otherworldly..Using a false name, claiming that he was an adoptee, Junior made inquiries with several child-placement organizations, as well as with state and federal agencies. He discovered that Wulfstan's story was true: Adoption records were sealed by law for the protection of the birth parents, and getting at them was all but impossible..he wasn't wholly without feeling, of course. A poignant current of sadness eddied in his heart, a sadness at the thought of the love and the happiness that he and the nurse might have known together. But it was her choice, after all, to play the tease and to deal with him so cruelly..The poor girl's blood pressure soared in spite of the medication. She suffered a violent seizure..You struck a discord that can he heard, however faintly, all the way to the farthest end of the universe.....He didn't pause to lock the house behind them. Bright Beach, in 1965, was as free of criminals as it was untroubled by lumbering brontosaurus.."We've been planning this a long time," Angel assured her. "I've climbed the tree a hundred times, maybe two hundred, mapping it, describing it to Barty, inch by inch, the trunk and its four divisions, all the major and minor limbs, the thickness of each, the degree of resilience, the angles and intersections, knots and fissures, all the branches down to the twigs. He's got it cold, Aunt Aggie, he's got it knocked. It's all math to him now."..Junior worried, however, that they had noticed him after he pulled to the curb twice behind them, that they were keeping an eye on him, ready to bolt if he got out of the car, in which case they might all make it inside before he could cut them down..The fully evolved man never has to rely on the gods of fortune, Zedd tells us, because he makes his luck with such reliability that he can spit in the faces of the gods with impunity..Entering the bedroom, Junior had expected to cast aside his pistol and draw a knife. But he was no longer in a mood for close-up work. Fortunately, he'd managed to hold on to the gun..Lifted from his despair by this exhilarating wrath, Junior turned away from the mirror, looking for the bright side once more. Perhaps it was the bathroom window..Using the straight edge of a ruler to guide his eye down each column, Junior searched for Bartholomew, ignoring surnames. He had already checked to see if anyone in the county had Bartholomew for a last name; no one in this directory did..He desperately needed closure in the matter of Naomi's death. That was what these past three years and these supernatural events were all about..This morning, only his love for his sister, Agnes, gave him the courage to drive and to become the pie man.."In addition," Daines said, "her pelvis is small, which would present problems of delivery even in an ordinary pregnancy. And the muscle fibers in the central canal of her cervix, which ought to be softening in anticipation of labor, are still tough. I don't believe the cervix will dilate well enough to facilitate birth."..Maria, after a single sip of Chardonnay, fled to the kitchen, ostensibly to check on the apricot flan that she'd brought, but in reality to press a cool and slightly damp dishtowel against her eyes..Junior suspected that no one other than this man's mother called him Tom. He was probably "Detective" to some and "Vanadium" to most who knew him..Junior levered up, scrambled up, vaulted over, and crashed into the deep bin, with every intention of landing on his feet. But he overshot, slammed his shoulder into the back wall of the container, fell to his knees, and sprawled facedown in the trash..Tom caused less of a stir in the restaurant than Kathleen had

expected. Other diners noticed him, of course, but after one or two looks of shock or pity, they appeared indifferent, though this was undoubtedly the thinnest pretense of indifference. The same quality in him that elicited deferential regard from the waiter apparently ensured that others would be courteous enough to respect his privacy..In a few instances, when his suspicions were aroused in spite of their denials, Junior tracked down their residences. He observed them in the flesh and made additional-and subtle-inquiries of their neighbors until he was satisfied that his quarry was elsewhere.. "But I've never seen a case like this. Usually, boils appear on the back of the neck. And in moist areas like the armpits and the groin. Not so often on the face. And never in a quantity like this. Really, I've never seen anything like it." Most likely, if Victoria was entertaining, the visitor's car would have been parked in the driveway..He found the strength to squeeze her hand tighter than before. "Be safe. Keep Angel safe." In her features, the girl entirely resembled her mother. She was nothing whatsoever like Junior. Only the light brown shade of her skin provided evidence that she hadn't been derived from Seraphim by parthenogenesis..to believe that any man with such a hard gut slung over his belt, with a bull neck."Not that trains are any better. Look at the Bakersfield crash back in '60. Santa Fe Chief, out of San Francisco, smashed into an oil-tank truck. Seventeen people crushed, burned in a river of fire."..Meanwhile, before they needed to plan the wedding, there was time for an orange soda and a root beer, and more of Dr Jekyll and Mr Hyde..Agnes delighted in their conversations. Barty was far ahead of the language learning curve for his age, but he was still a child, and his observations were filled with innocence and charm. "You mean your cold is like in your nose but not in your feet?"..Striving to appear casual, but obviously unnerved, the pencil-thin man backed off again. "The paintings are lovely, wonderful, I'm enormously impressed. I'm a friend of the artist's, you know. She was a tenant of mine, I was her landlord during her early college years, in her salad days, a nice little studio apartment, before the baby. A lovely girl, I always knew she'd be a success, it was so apparent in even her earliest work. I just had to come tonight, even though a friend's covering two of my four sets. I couldn't miss this."..Elsewhere in the cemetery, about 150 yards away, another interment service-with a much larger group of mourners-had begun prior to this one for Naomi. Now it was over, and the people were dispersing to their cars..Certain that he was overreacting, Tom nevertheless left the kitchen as a cop, not a priest, would leave it: staying low, knife thrust in front of him, clearing the doorframe fast..Without excellence, of course, there would be no civilization, no progress, no joy; and Agnes was surprised that this sharp bur of her father's philosophy had stuck deep in her subconscious, pricking and worrying her unnecessarily. She'd thought that she was entirely clean of his influence..IN HIS FORD VAN filled with needlepoint and Sklent and Zedd, Junior Cain-Pinchbeck to the world-left the Bay Area by a back door. He took State Highway 24 to Walnut Creek, which might or might not have walnuts, but which offered a mountain and a state park named for the devil: Mount Diablo. State Highway 4 to Antioch brought him to a crossing of the river delta west of Bethel Island. Bethel, for those who had taken good advanced courses in vocabulary improvement, meant "sacred place"..Junior didn't believe in gods, devils, Heaven, Hell, life after death. He put his faith in one thing: himself..Her hands shook as she counted out the fare and the tip from her wallet. "I'm scared sick. Maybe you should just take me right back home."..Not one day in anyone's life, so her father taught, is an uneventful day, no day without profound meaning, no matter how dull and boring it might seem, no matter whether you are a seamstress or a queen, a shoeshine boy or a movie star, a renowned philosopher or a Downs syndrome child. Because in every day of your life, there are opportunities to perform little kindnesses for others, both by conscious acts of will and unconscious example. Each smallest act of kindness-even just words of hope when they are needed, the remembrance of a birthday, a compliment that engenders a smile-reverberates across great distances and spans of time, affecting lives unknown to the one whose generous spirit was the source of this good echo, because kindness is passed on and grows each time it's passed, until a simple courtesy becomes an act of selfless courage years later and far away. Likewise, each small meanness, each thoughtless expression of hatred, each envious and bitter act, regardless of how petty, can inspire others, and is therefore the seed that ultimately produces evil fruit, poisoning people whom you have never met and never will. All human lives are so profoundly and intricately entwined-those dead, those living, those generations yet to come-that the fate of all is the fate of each, and the hope of humanity rests in every heart and in every pair of hands. Therefore, after every failure, we are obliged to strive again for success, and when faced with the end of one thing, we must build something new and better in the ashes, just as from pain and grief, we must weave hope, for each of us is a thread critical to the strength-to the very survival-of the human tapestry. Every hour in every life contains such often-unrecognized potential to affect the world that the great days for which we, in our dissatisfaction, so often yearn are already with us; all great days and thrilling possibilities are combined always in this momentous day..A moment ago, he'd slammed into Angel's room, and that was loud, but this boomed louder, thunderous enough to wake people throughout the building..A blood test might prove that Junior was the father. Accusations might sooner or later be made against him by bitter and hate-filled members of her family, perhaps not even with the hope of sending him to prison, but solely for the purpose of getting their hands on a sizable pan of his fortune, in the form of child support..Over potato soup and an asparagus salad, the dinner conversation got off to a promising start: a discussion of favorite potato dishes, observations on the weather, talk of Mexico at Christmas..Fathoms of silence flooded the line. Still, she listened. He sensed her there, though as if at a great depth..At her touch, she felt a tension go out of the doctor. His hands slipped from his face, and he turned to her, shuddering not with fear but with what might have been relief..Downstairs, two shots cracked, and an instant after the second, an explosion shook the parsonage as though the long-promised Judgment were at hand. This was a real explosion, not the impact of another runaway Pontiac..Phimie's stubbornly high blood pressure, the presence of protein in her urine, and other symptoms indicated her preeclampsia wasn't a recent development; she was at increased risk of eclampsia. Her hypertension was gradually coming under control-but only

by resort to more aggressive drug therapy than the physician preferred to use..She stepped on a broken-off chair leg, lost her balance, and fell backward into the side of the bed..Orange firelight bloomed in the living room below, a wave of heat washed over Paul, and immediately behind the heat came greasy masses of roiling black smoke, drawn to the stairwell as to a flue..This was the same woman who had been stripping the second bed when Celestina arrived earlier. Now she was here to remake the first..One moment, girl and yellow vinyl ball. The next moment, gone as if they'd never been..In his entire life, Junior had never suffered this much pain without first having killed someone. Reluctant to depart until certain that his student was out of danger physically, emotionally, and mentally, Bob Chicane stayed until three thirty. When he left, he broke some bad news to Junior: "I can't keep you on my student list, man. I'm sorry, but you're way too intense for me. Way too intense. Everything you do. All the women you run through, this whole art thing, whatever all those phone books are about-now even meditation. Way too intense for me, too obsessive. Sorry. Have a good life, man." "Phimie said the creep thought it was funny, but using Daddy's voice as background music also ... well, aroused him, maybe because it further humiliated her and because he knew it would humiliate our father. But we never told Daddy that part of it. Neither of us saw any useful reason for telling him." "Even Agnes was briefly unnerved to the extent that she said, "Enough of this. It's not fun anymore." For Agnes and Barty, one stop remained, where some of the joy of Christmas would always be buried with the husband that she still missed every day and the father that he would never know..Instead, he focused on the hand in the flashlight beam: four long, thin, chalk-white digits bent to the heel; thumb thrust up stiffly, as though Neddy hoped to hitchhike out of the Dumpster, out of death, and back to his piano in the cocktail lounge on Nob Hill..Clutching the purse as though determined to resist robbery even in death, the guy dropped, sprawled, shuddered, and lay still. He'd gone down with no shout of alarm, with no cry of mortal pain, with so little noise that Junior wanted to kiss him, except that he didn't kiss men, alive or dead, although a man dressed as a woman had once tricked him, and though a dead pianist had once given him a lick in the dark..Dr. Lipscomb brought his hands to his face, covering his nose and mouth as earlier they had been covered with a surgical mask, as though he were in danger of drawing in, with his breath, an idea that would forever change him..In his smooth whiteness, Junior felt a pressure on his eyes, and then came visual hallucinations, disturbing his deep inner peace. He felt someone peel up his eyelids, and Bob Chicane's worried face-with the sharp features of a fox, curly black hair, and a walrus mustache-was inches from his..Whether making love or killing, he was never guided by bigotry. A private little joke with himself. But true..Yet, with no recollection of rising from his chair, he found that he had shouldered his backpack and crossed the room. The three men looked up expectantly..THE SANDMAN WAS powerless to cast a spell of sleep while Junior spent the night flushing away enough water to drain a reservoir..Great hobnailed wheels of pain turned through Agnes, driving her into darkness for a moment..Four blocks from his office, on a street more upscale than his own, Nolly came to the Tollman Building. Built in the 1930s, it had an Art Deco flair. The public areas featured travertine floors, and a WPA-ers mural extolling the machine age brightened a lobby wall..Inexplicably, each repetition of Bartholomew heightened Junior's anxiety. The name resonated not just in his ear, but in his blood and bones, in body and mind, as if he were a great bronze bell and Bartholomew the clapper..Junior realized that thick drool oozed out of the right corner of his mouth. Shakily, he raised one hand to wipe his face..Disbelieving his eyes, Junior reached across his body with his left hand and picked up the quarter. Although it had been lying in his right palm, it was cold. Icy..The universe was vast and Barty small, yet the boy's immortal soul made him as important as galaxies, as important as anything in Creation. This Agnes believed. She couldn't tolerate life without the conviction that it had meaning and design, though sometimes she felt that she was a sparrow whose fall had gone unnoticed. Barty sat on the edge of the doctor's desk, legs dangling, holding Red Planet, his place marked by an inserted finger..Now that Tom knew what to look for, the gloom couldn't conceal the incredible truth..When the old man died and Agnes inherited the property, the three of them played cards in the backyard for the first time on the day of his funeral, played openly rather than in secret, almost giddy with freedom. Eventually, when Agnes fell in love and married, Joey Lampion joined their card games, and thereafter, Jacob and Edom enjoyed a greater sense of family than they had ever known before..The police. The stupid police. Ringing the bell when they knew he'd been shot. Ringing the damn doorbell when he lay here helpless, the Industrial Woman lurching toward him, his toe on the other side of the kitchen, ringing the doorbell when he was losing enough blood to give transfusions to an entire ward of wounded hemophiliacs. The stupid bastards were probably expecting him to serve tea and a plate of butter cookies, little paper doilies between each cup and saucer..Celestina told them about Nella Lombardi and about the message Phimie delivered to Dr. Lipscomb after being resuscitated. "Phimie was, . . . so special. There's something special about her baby, too." Meanwhile, he became an accomplished meditator. Guided by Bob Chicane, Junior progressed from concentrative meditation with seed the mental image of a bowling pin-to meditation without seed. This advanced form is far more difficult, because nothing is visualized, and the purpose is to concentrate on making the mind utterly blank.."Agnes," said the magician, "you better start meeting with that librarian now to record your own life. If you don't get started for another forty years, by then you'll need a whole decade of talking to get it all down." "Phimie must be honored now with laughter instead of with tears, because her life had left Celestina with so many memories of joy and with joy personified in Angel. To fend off tears, she said, "Listen, Clark Kent, we women need our little secrets, our private thoughts. If you can really read my heart this easily, I guess I'm going to have to start wearing lead brassieres." Junior was vigilant. He took note of all those who approached the piano, whether they dropped money in the fishbowl or not..Chicane wasn't alone. Sparky Vox, the building superintendent, approached behind him and hovered. Seventy-two yet as spry as a monkey, Sparky didn't walk so much as scamper like a capuchin..As Junior stood at Seraphim's grave, his breath smoked from him in the still night air, as though he were a dragon..During the past week,

Junior had undertaken quiet background research on the prestidigitator with a badge. The cop was unmarried. He lived alone, so this bold visit entailed no risk. Agnes's contractions were getting more frequent and slightly more severe, so she said, "All right, but let me go tell Edom and Jacob that we're leaving." She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. Madness or a brilliant deductive insight: Naomi, the hateful bitch, she poisoned me! Then from San Francisco International, through the fog-shrouded streets of the night city, to St. Mary's, to Room 724. And to the discovery that Phimie's blood pressure was so high-210 over 126-that she was in a hypertensive crisis, at risk of a stroke, renal failure, and other life-threatening complications. Then quickly from Spruce Hills to Eugene by car, from Eugene to Orange County Airport by a chartered aircraft, from Orange County to Bright Beach in a stolen '68 Oldsmobile 4-4-2 Hurst, while the advantage of surprise remained with him. Carrying a newly acquired, silencer-fitted 9-mm pistol, spare magazines of ammunition, three sharp knives, a police lock-release gun, and one piece of steaming luggage, Junior had arrived late the previous evening. At best, Vanadium might decide Junior had come here to learn what other funeral his nemesis had attended-which was, in fact, the true motivation. But this made it clear that Junior feared him and was striving to stay one step ahead of him. Innocent men didn't go to such length. As far as the fruitcake cop was concerned, Junior might as well have painted I killed Naomi on his forehead. Bartholomew was an uncommon name, however, and logic suggested that if the baby was now called Bartholomew, he'd been named for his adoptive dad. Therefore, a search of the listings might be fruitful. As Sklent so insightfully put it: Some of us live on after death, survive in spirit, because we are just too stubborn, selfish, greedy, grubbing, vicious, psychotic, and evil to accept our demise. None of those qualities described sweet Naomi, who had been far too kind and loving and meek to live on in spirit, after her lovely flesh failed. Now at one with the earth, Naomi was no threat to Junior, and the state had paid for its negligence in her death, and the whole matter should have been brought to closure. There were only two barriers to full and final resolution: first, the stubborn, selfish, greedy, grubbing, vicious, psychotic, evil spirit of Thomas Vanadium; and second, Seraphim's bastard baby--little Bartholomew. The telephone rang, putting an end to their chat, but Agnes would remember the substance of it later that year, on the day before Christmas, when Barty took a walk in the rain and changed forever his. "I get frustrated," he admitted. "Trying to learn how to do things in the dark ... I get pee'd off, as they say." He added verisimilitude to his threats by concluding with a few hard punches where they wouldn't show, in her breasts and belly, and then he, went home to Naomi, to whom he'd been married, at that time, less than five months. Wednesday morning, January 10, he wired one and a half million dollars from the Gammoner account to Pinchbeck in Switzerland. Then he closed out the account in the Grand Cayman bank. Neddy cooperated by not deigning to look back. Eventually, he stopped a young man who, judging by the name tag on the lapel of his blazer, was a gallery employee. They put their heads together in conversation, and then the musician headed through an archway into the second showroom. The man, whom the others called Licky, led him out into a hot, bright morning that dazzled his eyes. Leaving his cell he had felt the spellbonds loosen and fall away, but there were other spells woven about other buildings of the place, especially around a tall stone tower, filling the air with sticky lines of resistance and repulsion. If he tried to push forward into them his face and belly stung with jabs of agony, so that he looked at his body in horror for the wound; but there was no wound. Gagged and bound, without his voice and hands to work magic, he could do nothing against these spells. Licky had tied one end of a braided leather cord around his neck and held the other end, following him. He let Otter walk into a couple of the spells, and after that Otter avoided them. Where they were was plain enough: the dusty pathways bent to miss them. "As she comes closer to full term," said Dairies, "she's at great risk of preeclampsia developing into full eclampsia." An affecting but difficult-to-define note in Dr. Lipscomb's voice brought Celestina slowly out of the office chair, to her feet. Perhaps it was wonder. Or fear. Or reverence. Perhaps all three. Reading about child prodigies, Agnes learned that most if not all math whizzes also possessed musical talent. To a lesser but still impressive extent, many young geniuses in the music world were also proficient at math. "Uncle Edom. Uncle Jacob. Aunt Maria. So I can remember faces after ... you know." "He came through the surgery well. He'll be in post-op for a while, then brought here to the ICU. His condition's critical, but there are degrees of critical, and I believe we'll be able to upgrade him to serious long before this day is over. He's going to make it." When Junior walked the cracked-linoleum corridor and descended the six flights of stairs to the street, he discovered that a thin drizzle was falling. The afternoon grew darker even as he turned his face to the sky, and the cold, dripping city, which swaddled Bartholomew somewhere in its concrete folds, appeared not to be a beacon of culture and sophistication anymore, but a forbidding and dangerous empire, as it had never seemed to him before. As he stepped out of the street, Don't Walk shortened to Walk, and when he checked for pursuit, he found it. Here came Vanadium, who would have been shivering in want of a topcoat if his flesh had been real. They were each down to one last sip of wine, studying dessert menus, when Celestina began to wonder if, in spite of all instincts and indications, she might be wrong about the state of Wally's heart. The signs seemed clear, and if his radiance wasn't love, then he must be dangerously radioactive-yet she might be wrong. She was a woman of some insight, quite sophisticated in many ways, with the raw-nerve perceptions of an artist; however, in matters of romance, she was an innocent, perhaps even more pitifully naive than she realized. As she perused the list of cakes and tarts and homemade ice creams, she allowed doubt to feed upon her, and as the thought grew that Wally might not love her that way, after all, she became desperate to know, to end the suspense, because if she didn't mean to him what he meant to her, then Daddy was just going to have to accept her conversion from Baptist to Catholic, because she and Angel would have to spend some serious heart-recovery time in a nunnery. Two staff members were at the front desk, when last he'd seen them, out of sight now and too far away to hear the crooning. Junior had been waiting at the doors when the

library opened, and thus far he'd encountered no other patrons. Nevertheless, he stepped away from the wall, and with his hands extended to full arm's length, he turned, feeling the lightless world around him. Nothing. No one. He found it difficult to make a painful personal revelation sound sincere when delivered in a shout, but he managed well enough to bring a shine of tears to her eyes: "Part of my left foot was shot off in this upcountry sweep we did." Now here was a thing, worse than the thought of a quarter in the closed hand: Neddy's eyes seemed to follow Junior as he rooted among the trash bags. He smiled. "Those of us who were priests first--yeah, we're all a broody bunch. Of the others--not many, but probably more than you think." "Jacob scares people," Agnes said. "No one would eat a pie that Jacob delivered without having it tested at a lab." Frequently, people told Agnes that she should find an agent for Barty, as he was wonderfully photogenic; modeling and acting careers, they assured her, were his for the asking. Though her son was indeed a fine-looking lad, Agnes knew he wasn't as exceptionally handsome as many perceived him to be. Rather than his looks, what made Barty so appealing, what made him seem extraordinarily good-looking, were other qualities: an unusual gracefulness for a child, such a physical easiness in every movement and posture that it seemed as though some curious personal relationship with time had allowed him twenty years to become a three-year-old; an unfailingly affable temperament and quick smile that possessed his entire face, including his mesmerizing green blue eyes. Perhaps most affecting of all, his remarkable good health was expressed in the lustrous sheen of his thick hair, in the golden-pink glow of his summer-touched skin, in every physical aspect of him, until there were times when he seemed radiant. Thrilled by the music but unable to understand a word of the play, he arranged German lessons with a private tutor. Shadows still perched throughout most of the room. They no longer reminded her of roosting birds, but of a featherless flock, leathery of wing and red of eye, with a taste for unspeakable feasts. Although the ace of hearts had only positive meanings, and although, according to Maria, multiple appearances, especially in sequence, meant increasingly positive things, a series of chills nevertheless riffled through Agnes's spine, as if her vertebrae were fingers shuffling. For half an hour he studied Barty's eyes with various devices and instruments. Thereafter, he arranged an immediate appointment with an oncologist, as Joshua Nunn had predicted. Frowning, Angel studied the tasty strip of meat pinched between her fingers, reevaluating everything she thought she knew about the source of bacon. But first, March 23: the bad date with Frieda Bliss, and what he discovered in his apartment when he came home that night. She told him to stay on the line, stay on no matter what, told him to keep talking to her, and he hung up. Later, at home, after Agnes sent Edom back to his apartment, she opened a bottle of vodka that she had bought on the way back from Maria's. She mixed it with orange juice in a waterglass. Ever the romantic, he wanted to surprise her. Voila! Flowers, wine, and moi. Since their electrifying connection in the hospital, she had been yearning for him; but she wouldn't expect a visit for a few weeks yet. He was eager to see her face brighten with delight. As though frightened of the gentle certainty in Celestina's eyes, the doctor turned away from her, and toward the window once more. He switched off the flashlight and stood solemnly for a moment, paying his respects to Seraphim. She had been so sweet, so innocent, so supple, so exquisitely proportioned. "And you're saying fear can fill his emptiness as well as sex or booze?" Kathleen wondered. Paul's Mediterranean complexion didn't make a blush easy to detect, but Tom thought his face brightened until it was a shade or two closer to the color of his rust-red hair. His eyes, usually so direct, evaded Celestina. Junior descended the escalator two steps at a time, not content to let it carry him along at its own pace. When he reached the second floor, however, he found that Vanadium's ghost had done what ghosts do best: faded away. Abandoning his search for the perfect tie chain but determined to remain calm, Junior decided to have lunch at the St. Francis Hotel. He hesitated, because until the limited explanations he'd made to Celestina in San Francisco, he had never discussed his special perception with anyone except two priest counselors in the seminary. At first he felt uneasy, talking of these matters to strangers-as if he were making a confession to laity who held no authority to provide absolution but as he spoke to this hushed and intense gathering, his doubts fell away, and revelation seemed as natural as talk of the weather. "It's easy to see you as a cop," Kathleen said. All the whacks, pops, and worm buckets just trip off your tongue, so to speak. But it takes some effort to remember you're a priest, too." He bought knives. And then sheaths for the knives. He acquired a knife-sharpening kit and spent the evening grinding blades. As she clambered through the open door into Celestina's lap, the girl said, "Uncle Wally gave me an Oreo."
