I envy people like you who are able to start talking out of the blue." .But here luck turned against them, for no sooner had they reached the shore again when the sailors descended on them. The jailor had at hist woken up and, finding his captives gone, had organized a searching party which set out just as Amos and the prince reached the boat.The second meeting is to take place this afternoon. All of us have our fingers crossed..Colman frowned to himself as his mind raced over the data's significance. No sane attacking force would contemplate taking an objective like that by a direct frontal assault in the center--the lowermost stretch of the trail was too well covered by overlooking slopes, and there would be no way back if the attack bogged down. That was what the enemy commander would have thought anyone would have thought. So what would be the point of tying up lots of men to defend a point that would never be attacked? According to the book, the correct way to attack the bunker would be along the stream from above or by crossing the stream below and coming down from the spur on the far side. So the other side was concentrating at points above both of the obvious assault routes and setting themselves up to ambush whichever attack should materialize. But in the meantime they were wide open in the middle..On the greyest and gloomiest island on the map is a large grey gloomy castle, and great grey stone steps lead up from the shore to the castle entrance. This was the skinny grey man's gloomy grey home. On the following grey afternoon, the ship pulled up to the bottom of the steps, and the grey man, leading two bound figures, walked up to the door..Lang was leaning back in Crawford's arms, trying to decide if she wanted to make love again, when a gunshot rang out in the Pod-kayne.."Well," Song admitted, "it wasn't a bad inference, at that. pocket an envelope, and from the envelope he took a large, fluttering moth. "This flew in my window last night," he said. The wings were pale blue, with brown bands on the edges, and the undersides were flecked with spots of gold. He pushed in a long metal flap at the side of the trunk, very like a mail slot, and slid the moth inside.. "Alas," said Amos, "he was blown away in the wind." He climbed up the ladder and handed the grey man the mirror. "Now we only have a third to go, if I remember right. They made Manaos by dawn and roused Dr. Robales from slumber at his house near the plaza..The only man speaking was tall, thin, and grey. He wore a grey cape, grey gloves, grey boots, and his hair was grey. His voice sounded to Amos like wind over mouse fur, or sand ground into old velvet The only thing about him not grey was a large black trunk beside him, high as his shoulder.
