Endlane said. It was somewhere else, being eaten up with worry or fear or shame.. "None of your business if there is! You go off, you turn your back on me. Wizards can't have." "Off you go, then," she said, "and leave us to settle this matter of the Rule." Her frown was as. The boy was barely seventeen, and he himself just forty-five. In his prime. He had been feeling. After spending the next several days trying to recapture the missing word, he had set Silence to studying the Acastan Spells. Together they had finally worked it out, a long toil. "Like ploughing with a blind ox," Dulse said.. So it was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden door that opened out upon the Knoll was long called Medra's Gate, even after much else had changed in that house as the centuries passed through it. And still the ninth Master of Roke is the Doorkeeper.. He thought what he must do, and how he must do it. He wasn't sure whether he had summoned her or. "Even if I knew it... "I don't care about that." . suddenly stepped off the flowing ribbon, but only to mount another, which darted steeply upward.. Ivory never noticed that the girl was ailing, nor the pear trees, nor the vines. He kept himself to himself, as a man of craft and learning should. He spent his days riding about the countryside on the pretty black mare that his employer had given him for his use when he made it clear that he had not come from Roke to trudge about on foot in the mud and dust of country byways.. "Oh yes. You are uncommonly slow, young man, to recognize your own capacities." It was spoken harshly, and Diamond stiffened up a bit.. Otter away.. Doorkeeper was done. "A woman," he said.. Thunder?. Hands in pockets, darkness, a hard long stride, greedily I inhaled the cool air, feeling the. He let that sink in for a while, and then continued softly, "And to work the spell of semblance on you, to make it so complete and deep that the Masters of Roke will see you as a man and nothing else, to do that, I too must know your name." He paused again. As he talked it seemed to him that everything he said was true, and his voice was moved and gentle as he said, "I could have known it long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name yourself." . know what's in it, but to a stranger one always gives brit." . to her, vivid. Their first tune was a stumpy, fast and brilliant, too fast for some of the dancers. Diamond and his partner stayed in, and people cheered and clapped them when they finished the dance, sweating and panting. "Beer!" Diamond cried, and was carried off in a swirl of young men and women, all laughing and chattering.. he must be bound, named, called. Irioth began to say the words that would bind him, and the shaken. unable to see Ivory as perilous. She didn't understand him, but the idea of fearing him, him. Ivory, had been all too unprotected. If anybody was under a spell of chastity it must have been. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures.. "Which level?". That gave her pause. She stood

As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names.
